November – Volume Six

Hello SMLPSA Membership,

I am sitting here today and writing this issue of our Newsletter with a grave sense of urgency. As we all know, tomorrow may very well be the most important day in our lifetimes – to save our Republic from total and unabashed Tyranny and lawlessness. What we have seen in the past eight years has never had precedence like this before, unless we were talking about Civilian Organized Crime. The Politicians of our Nations, have in effect become a Mafia in their own right, and have taken over EVERY aspect of our lives, for their own personal enrichment.

We are forced to pay a tax, for a bogus health care scheme we don't want. We must pay taxes and fees to use our infrastructures system, that they waste on pet projects and crony Capitalism, while allowing our infrastructure to deteriorate beyond repair. We must ask permission to improve our own land and structures and pay ridiculous fees, or be fined if we get caught not complying with the vast draconian rules and regulations. We must pay income taxes and FICA fully knowing the elite and connected do not, and, that they will squander and waste those funds and tell us at retirement there is no money left. We must watch them banter and conduct dog and pony shows, through endless investigations of corruption that only lead to nul pros or charges dropped. We see these Politicians break Federal Laws at the most grievous level and lie to our faces, while knowing they will never prosecuted. We see bribery, corruption, blackmail, forgery, complicity and all levels of crime between our Government and the Media. We have a President who went on TV this weekend and TOLD Illegal Aliens to vote in this election, and DON'T worry about being prosecuted in direct violation of Federal Law.

How lawless have we become? We are definitely a Banana Republic now where the everyday American Citizen must comply like the Serfdoms of the era of Kings, or be banished or killed for failure to comply. One of the most dangerous aspects of this present condition, is that a Branch of Government, The Supreme Court, has become an extension of the Executive Branch, and therefore rubber stamps their agendas. We see no unbiased respect for the Constitution nor their willingness to uphold it. Furthermore, we risk the bench becoming a full Liberal seating, that will affect our Children and Grandchildren for decades to come. Our most important basic rights afforded to us by the Constitution and the Amendments are nothing more than flexible words on paper which can be manipulated to suit ones taste. I find it beyond appalling that WE have allowed our Country to denigrate to this extent. We have a Presidential Candidate whose policies are designed and supported by nefarious wealthy players like George Soros who wants to see the destruction of Democracy in this Country, and hates America for what it stands for at all levels. That same Candidate has avoided prosecution for Treasonous acts that others who committed one one-hundredth of the same crime have gone to jail for. We now stand a chance to make history by NOT electing the first female President, but by electing a female who is the most corrupt individual this Country may have ever witnessed. All of our Rights under the Amendments are severely at risk should she win tomorrow. I guarantee you the Second Amendment will be abolished if she wins. More importantly, our Nation will become part of a huge scheme known as Agenda 21 which promotes borderless Countries, allowing free reign for Criminals. Terrorists, Drug Trafficking, Human Trafficking, Money Laundering, and every aspect of nefarious acts our borders were designed to protect us from. Our National Debt will reach a point of no return within a year and we will implode financially. Our monetary system will collapse, our dollar will be worthless and chaos will ensue along with rioting and bloodshed on the streets. We will be looking at the largest Civil disobedience within months of her Inauguration, this Country has ever seen. It is possible a Civil War could break out and many innocent lives will be lost. Why? Because an Armed Revolution against a Tyrannical Government may be our only resolve to save our Country. History always repeats itself, and the greatest Nations on Earth have all self-destructed. We are just 24 hours away from allowing that to happen. Think LONG AND HARD about your vote tomorrow and for God and our Country, do the right thing!
